Steps

What does the person (or group) typically experience?

Interactions

What interactions do they have at each step along the way?

- People: Who do they see or talk to?
- Places: Where are they?
- Things: What digital touchpoints or physical objects would they use?

What are the details it will ask for predicting CKD?

Will it give results within a Single day ?

CKD detection section of the website, iOS app, or Android app

CKD detection section of the website, iOS app, or Android app

Payment overlay within the website, iOS app, or Android app

Direct interactions with the guide, and potentially with other members

Most common objects people interact with on checkup are chairs ,Beds etc.,

The User looks for t guide, often from a distance as they walk closer

Often takes place at the same place where the group met the guide, but not always

Depending on the User and guide, tipping/cash may be involved

Customer's email (software like Outlook or website like Gmail) Completed experiences section of the profile on the website, iOS app, or Android app

If other users interact with this person, they will see these completed checkup also

Recommendations span across website, iOS app, or Android app

Goals & motivations

At each step, what is a person's primary goal or motivation? ("Help me..." or "Help me avoid...")

The Nurse guide makes first appearance at this point, although the user doesn't interact with them yet.

Customer's email (software like Outlook or website like Gmail)

delp me see what I could be doing next

Positive moments

What steps does a typical person find enjoyable, productive, fun, motivating, delightful, or exciting?

Some Test results we are taking are exciting to see

Negative moments

What steps does a typical person find frustrating, confusing, angering, costly, or time-consuming?

Areas of opportunity

How might we make each step better? What ideas do we have? What have others suggested?
